

BMW Billiards Players History Average List to be used for the Summer 2024 season

The following pages contain the averages for everyone that has played 3 weeks or more for BMW Billiards during the 2023-2024 season.

If you have played in multiple leagues, your **highest most established** history average will be listed.

All regular and sub players will use their average from last season for the first 2 weeks of play. On the third week they will use the average that they have established in the first 2 weeks. If there are divisions within a league, lower division teams will not spot higher division teams any handicap.

New players with no history average will shoot as highest average, but no handicap will be given. They cross out with opposing high shooter. New players play with no average for two weeks.

If a player did not play in the 2023-24 season, but played in the 2017-18 Season or after, those averages will be stored in Compusport.

It is teams responsibility to make sure they are using the correct averages. It is not the responsibility of the league office to check any handicaps.

It is both captains responsibility to make sure handicap and lineup are correct.
Once play starts, handicap can not be adjusted.

Maximum handicap to be given: 12 total per round in 4 person game format, 9 total per round in 3 person format.

Note 8/9 ball combo leagues:

In the leagues playing 8 & 9 ball combo format, there will be no handicaps used for 9-ball.

For Summer 2024 Season

Name	AVG
ACEVEDO, SIMON	7
ACOSTA, YVETTE	8
