

BMW Billiards Players History Average List to be used for the 2018-2019 season

The following pages contain the averages for everyone that has played 3 weeks or more for BMW Billiards from the 2017-2018 league season.

If you have played in multiple leagues, your **highest most established** history average will be listed.

All regular and sub players will use their average from last season for the first 3 weeks of play. On the fourth week they will use the average that they have established in the first 3 weeks. (Exhibition night to be counted as 1 week) Lower division teams will not spot higher division teams any handicap.

New players with no history average will shoot as highest average, but no handicap will be given. They cross out with opposing high shooter.

It is teams responsibility to make sure they are using the correct averages. It is not the responsibility of the league office to check any handicaps.

It is both captains responsibility to make sure handicap and lineup are correct.
Once play starts, handicap can not be adjusted.

Maximum handicap to be given: 15 total per round in 5 person game format, 12 total per round in 4 person game format, 9 total per round in 3 person format.

Compusport will use last season history average till a person has 3 weeks played in a league. (If this average does not show up in Compusport please reference this history average sheet. If opposing player has no average established it is important to remember to cross out corresponding player's average in Compusport. Whatever handicap you have used during match (even if incorrect) must be the averages you report in Compusport. Type over average in Compusport, to make it match score sheet.

For 2018-2019 Season

Name	AVG
ACEVEDO, SIMON	7
ACOSTA, YVETTE	5
ADKISSON, JEFF	8
