

## **BMW Billiards Players History Average List to be used for the 2021-2022 season**

The following pages contain the averages for everyone that has played 3 weeks or more for BMW Billiards from the 2020-2021 league season.

If you have played in multiple leagues, your **highest most established** history average will be listed.

All regular and sub players will use their average from last season for the first 3 weeks of play. On the fourth week they will use the average that they have established in the first 3 weeks. (Exhibition night to be counted as 1 week)

Lower division teams will not spot higher division teams any handicap.

New players with no history average will shoot as highest average, but no handicap will be given. They cross out with opposing high shooter.

Maximum handicap to be given: 15 total per round in 5 person game format, 12 total per round in 4 person game format, 9 total per round in 3 person format.

**Handicap:** Before the match begins, it is both captains' duty to check the current standings and make sure the averages of the players are correct on the score sheet. It is both captains responsibility to make sure handicap and lineup are correct. **Once play starts, handicap can not be adjusted.** Note: Easiest way to check handicap is by putting lineup onto score sheet in Compusport. Compusport will use last season history average till a person has 3 weeks played in a league. (If this average does not show up in Compusport please reference the history average sheet posted on BMW website at [www.bmwbilliards.com](http://www.bmwbilliards.com) and located in bars by score sheets.) If opposing player has no average established it is important to remember to cross out corresponding player average in Compusport. Whatever handicap you have used during match (even if incorrect) must be the averages you report in Compusport. Type over average in Compusport to make it match score sheet. **REGARDLESS IF LINE-UP or HANDICAP IS WRONG, GAMES PLAYED WILL STAND AS PLAYED.**

**New players will play with no average for 3 weeks.** New players with no history average will shoot as highest average, but no handicap will be given. They cross out with opposing high shooter. If a player did not play in immediate past season but did play sometime from the season of 2017-18 season till present, averages from the past will be stored in Compusport. Use Compusport app to input player on score sheet & see their handicap.

If entering a player not on your team but has played before with BMW, make sure to select the correct player from the drop down list. If you add a person as a new player, but they are already in the system, it will not link them to their established average or past stats. If wanting to make sure the correct player is added, contact the league office at least one day prior to match and league office will add the correct player to your team.

## For 2021-2022 Season

Name	AVG
ACEVEDO, SIMON	6
ACOSTA, YVETTE	8
ADKISSON, JEFF	9
ADKISSON, MICHELLE	8
